DETAILED ACTION

1. This Office Action is responsive to communications filed on July 11, 2005.

Applicant's arguments, see Remarks on pages 13-16, with respect to claims 1-24 have been fully considered and are persuasive. The rejection of claims 1-24 has been withdrawn.

Drawings

2. The replacement Sheet 1 of the drawings was received on July 11, 2005. The drawings are objected to because the added legend —(Prior Art)— was not made by a process which will give it satisfactory reproduction characteristics, see 37 CFR 1.84 (h1).

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

3. The amendments to the specifications filed on July 11, 2005 has been received and approved.

Allowable Subject Matter

4. Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims are considered allowable when reading the claims, in light of the specification, none of the references of record alone or in combination disclose or suggest the combination limitations specified in the independent claims including the module being arranged to transmit data from the first restricted interface means to the first interface means and from the first interface means to the first restricted interface means so as to allow communication between the second data source and the network when they are connected to the module but not to transmit data between the first restricted interface means and the second interface means.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
